

Greenlands Year 2

Welcome back!

Welcome back for the last half term in year 2! As well as lots of learning, we have lots of fun things planned including Sports Day and our trip to Martin Mere.

Aladdin

The children are loving our work about Aladdin. We are reading the Disney story of Aladdin as well as watching clips from the videos which they are thoroughly enjoying. The children will be learning new vocabulary, describing the characters and settings. Eventually they will be writing a new chapter for the story.

Times tables

During the year we have been learning to do multiplication sums. By the end of the year, all the children should know their 2, 5 and 10 times table with instant recall. As well as practising at school, the children also need to practise at home. You could test them as you are walking to and from school, when they are in the bath or any time you have a few minutes! Start with the 10 times table and then move onto the 2 times and 5 times tables.

Martin Mere

In science, we are finishing off our work on living things learning about different habitats. We shall be looking at micro-habitats round school - naming the animals and plants that live there. When we visit Martin Mere, we will look at the living things in the wood and those that live in the ponds. Whilst we are there, we will also have lots of fun on the playground!

Ways to help

- Practise their spellings every night
- Read 4 or more times a week
- Help your child complete their homework
- Get your child to school every day and on time
- No earrings and long hair tied back on Thursday and Friday - PE days
